An act to amend Sections 4181 and 13220 of the Fish and Game Code, relating to fish and game, and making an appropriation therefor.

LEGISLATIVE COUNSEL'S DIGEST

SB 1153, as amended, Chesbro. Fish and Game *Commission: Department of Fish and Game*: wild turkeys: ~~depredation take permits~~ *appropriations*.

(1) Under existing law, any owner or tenant of land or property that is being damaged or destroyed or is in danger of being damaged or destroyed by elk, bear, beaver, wild pig, or gray squirrels, may apply to the Department of Fish and Game for a permit to kill that animal. The department, upon satisfactory evidence of the damage or destruction, is required to issue a revocable permit for the taking and disposition of the animal. *Existing law prohibits the use of poison to take a gray squirrel under that provision.*

This bill would also allow any owner or tenant of land or property that is being damaged or destroyed by wild turkeys to apply to the department for a permit to kill those animals. *The bill would also prohibit the use of poison to take a wild turkey.*

(2) *Existing law authorizes the commission, if a landowner or tenant applies for a permit to kill wild pigs or deer, in lieu of such a permit, and with the consent of, or upon the request of, the landowner or tenant,*

*under appropriate regulations, to authorize the issuance of permits to persons holding valid hunting licenses to take wild pigs or deer in sufficient numbers to stop the damage or threatened damage.*

*This bill would amend that provision to include wild turkeys, and would additionally require the department, if a landowner or tenant applies for a permit for wild pigs, wild turkeys, or deer, to notify the landowner or tenant about specified available options for allowing access by licensed hunters.*

(3) Existing law continuously appropriates money in the Fish and Game Preservation Fund to the department for payment of refunds of sums it determines have been erroneously deposited in the fund and for the payment of all necessary expenses incurred in carrying out the Fish and Game Code and any other laws for the protection and preservation of birds, mammals, reptiles, and fish, and to the Fish and Game Commission to pay the compensation and expenses of the commissioners and employees of the commission.

This bill would instead, commencing with the 2005–06 fiscal year, make the money in the Fish and Game Preservation Fund available for expenditure by the department and the commission only upon appropriation by the Legislature for those purposes.

The bill would impose new duties on the department and the commission relating to issuance of permits for killing wild turkeys, and because the Fish and Game Preservation Fund is currently continuously appropriated, the bill would make an appropriation.

Vote: majority. Appropriation: yes. Fiscal committee: yes. State-mandated local program: no.
